Vandals Swipe Speakers

Downtown Grayling may be without music for the holidays. Vandals stole the large speakers from the roof of Olson's of Grayling, removed the sound cones and threw the horns in the river. The cones are difficult to replace.

Deputies Apprehend Car Thieves

Auto Accidents Mar Season Opener

by Joe Schrader

Two adult males and a female juvenile were arrested last Saturday afternoon by Crawford County Sheriff's Deputies, driving a stolen car from the Mancelona area. Answering a call from Antrim County officials, Crawford County Deputies spotted the vehicle in Grayling, hauled it over, and made the arrests. The two adult males

were turned over to Antrim County officials for prosecution and the juvenile was remanded to the Probate Court. Names of the adults are being withheld pending their arraignment. It's expected that the trio will be charged with "driving away a vehicle without authorization".

Crawford County Sheriff Curt Haas reported that two

serious personal injury accidents occurred on Monday, one involving two cars at about 5:30 p.m. on the I-75 Business Loop in Grayling.

Although still under investigation, it's believed that a car driven by Elizabeth Atkinson of Grayling, was struck by one driven by William Gallagher also of Grayling, as she was turning onto the Business Loop from [See Accidents on page 9]

Bid Let For Kirtland C.C. Services Building

A bid of \$2,345,250, submitted by Gregory Construction Company of Bay City, was accepted and the contract awarded for construction of the new general services building at Kirtland Community College. Some \$1 million of the total cost of the new facility will be provided by the state from education funds.

The building represents one phase of a long-term school development plan and will provide a maintenance service complex on the ground floor, with the administration offices, art and business class areas on the main level. It will take about 18 months to build.

Financing the local share will require .45 mills, which will increase total millage for retiring building debts to .65 mills.

1978 Deer Predictions Given in MNR Magazine

LANSING — A Department of Natural Resources deer expert gives his predictions for the 1978 deer season in the November-December issue of "The Michigan Natural Resources Magazine", that went on sale at newsstands beginning October 20.

"Given favorable weather this fall, Michigan's deer hunters should enjoy another excellent season," says Dave Arnold, who is in charge of species management for the DNR's Wildlife Division.

Last year saw a record buck kill of 105,000, a healthy antlerless harvest of nearly 30,000, and a record archery kill of about 20,000 deer.

Even with the overwinter losses in parts of Michigan's north country, the deer herd continues at a fairly high level in much of the range. Arnold says

"Deer crop damage complaints have doubled in each of the last two years and doubled again the first half of 1978," he says. "Car-deer collisions this year are now slightly below the record of 16,000 deer killed by cars last year."

Arnold says an increased antlerless harvest combined with a continued high-level take by archers should partly compensate for an expected reduction in the buck kill.

"Hunter's should again take well over 100,000 deer," he predicts.

Thank You! Good Neighbors Of American Red Cross!

by Harrison Goodhue
It looks like the October Fund Drive to raise the money needed to assure continuance of Red Cross vital humanitarian services for the citizens of Crawford County will achieve its goal of \$5000.

So far \$4547.25 has been contributed, but, with the

continuance of the popular "McDonald's Cares" program through the end of November, plus the 22 regular financial supporters who have not yet responded, but whom we are confident will continue their financial support, it looks pretty sure the \$5000 will be raised.

GRAYLING, MICHIGAN — THURSDAY, NOVEMBER 16, 1978

From Our Corner ...

Now that the November General Election is history, we have a couple things that have concerned us, and wonder how others may have thought ... if anything.

Election of persons to represent us in every governmental office is one of our more cherished possessions ... to be able to decide ... whether we may be right or wrong. At least the chance is ours to make.

What causes our concern after this election, is a question of how come there is the difference of how long an elected official will serve ... and how come some official bodies of more than two have staggered years, and some the whole board comes up for reelection at the same time ...

What happened in the last election of the County Board of Commissioners ... except for two ... the whole board would have changed. This we do not feel is a healthy climate to dump the burdens of the operation of the county, with little knowledge of its operation, on a complete group of newcomers to the political scene.

We have staggered terms for our congressional representatives in Washington, as well as in Lansing. Grayling's City Council has staggered terms, as does the Crawford AuSable Board of Education.

How our Board of Commissioners got off on the deal of all of them coming up for reelection at the same time, we do not know ... In our opinion, a long look should be taken to see how a change could be made ... even if it were 3 one time and 4 the next, at least there would always be someone on the board with experience ... and when you start playing with over a million dollar budget, we're sure experience would help somewhat in making crucial decisions.

Another thing that bothers us is the length of terms different officials have ... some are four, and others two ... this also, does not make any sense.

We feel any elected official should have at least a four year term ... No way can you do justice to any job, such as this, in two years. By the time you know your way around, it is time to worry if you're going to be elected again ...

This could very well happen in two years with the new County Board of Commissioners ... and we don't feel it is right.

We throw these two things in the hopper, and hope someone may come up with a solution to be able to change the structure before it's too late.

Still on the election process ... but not concerned with persons running for office ... it has come up in the last two elections, school and the past one of barring interested persons in the polling places after the polls are closed.

In two instances, the doors have been locked to people, other than those working on the election board.

Monday we were shown a directive from Attorney General Frank Kelly, stating that the polls cannot be locked to those seeking information as to how the election is progressing in that polling place.

Now that we have taken care of the election problems that have bothered us ... we will turn off our corner this week to make room for the ads which are responsible for bringing your favorite newspaper into your homes ... and will only mention that we had visitors for the weekend from T.C. ...

"If you've got a boat, make sure your insurance covers it out of the water, too."

"Anyone can sell you a policy that covers your boat in the water."

"But how about all that time it's in storage? And while you're towing it to and from the lake? Statistics prove that a lot of damages occur while a boat is out of water."

"With an Auto-Owners Marine policy, you'll protect your boat in the water and out—and chances are, end up saving money at the same time."

The Bible Speaks

From Calvary Baptist Church

Where Is God's Word Preserved?

Revelation 22:16, 18, 19

All of us know God has magnified His Word above all His name, Psalm 138:2. We also know God's Word is forever settled in Heaven, Psalm 119:89. But who is divinely responsible to preserve God's Word here on earth?

It becomes clear from Revelation 22:16 that Jesus intended local New Testament churches to be the repository for divine revelation in this age. "I Jesus have sent mine angel to testify unto you these things in the churches." Verse 16. Remember the epistles to the Corinthians addressed "Unto the church of God which is at Corinth ..." 1 Cor 1:2 and 2 Cor 1:1. The epistle of Galatians was written by the apostle Paul "And all the brethren which are with me, unto the churches of Galatia." Gal 1:2.

Not only do we see scriptures multiplied throughout the New Testament telling us God committed His Word to local churches, but we see local churches proclaiming the Word and receiving a following. The believers who received the Word of God as the Word of God and not the Word of men, 1 Thess 2:13, "became followers of the churches of God which in Judaea are in Christ Jesus." 1 Thess 2:14.

Now, how do we know which religious organizations today can truly lay claim to the name church of God in Christ Jesus. The immediate context of Revelation 22 should point us to the primary test of any Church of Christ Jesus.

First, a true church of Jesus Christ will be made up of members who will not take away from anything in the Bible. "For I testify unto every man that heareth the words of the prophecy of this book, If any man shall add unto these things, God shall add unto him the plagues that are

written in this book." Rev. 22:18.

Second, a true church of Jesus Christ will be made up of members who will not take away from anything in the Bible. "And if any man shall take away from the words of the book of this prophecy, God shall take away his part out of the book of life, and out of the holy city, and from the things which are written in this book." Rev. 22:19. For one to take away from the Bible proves one is not a Christian and has no part in the promises of God's Word for Heaven and a glorious future.

We believe there has been an unbroken chain of New Testament churches from the time of Jesus Christ unto the present who have held and practiced this high view of Bible preservation.

I would be very fearful if I belonged to a so-called

"church" which adds to or takes from the Bible. Some do this with extra books of revelation. Some claim special visions and revelations directly from God. Some place tradition on a par with the Bible. Some make human reasoning equal to the Bible. Some make feeling or religious experience equal to the Bible. A true church accepts the Bible alone as God's inerrant, infallible authority for Christian faith and practice. (adv.)

97 Red Cross Donors Respond School Blood Bank A Success

MIKE WIELAND, Red Cross Faculty Advisor, watches as a student donates a valuable pint of blood. Fawn Isenbauer (right), observes as well, while a Red Cross Nurse (left), and student look on.

by Joe Schrader
Last Friday's Red Cross Blood Bank at Grayling High School was termed "successful" by Harrison Goodhue, County Chairman.

A total of 97 donors responded to the bank with the morning being devoted to students at G.H.S. and faculty members, while the afternoon hours were open to the public.

In addition to the blood donations, hundreds of students were given the opportunity to watch the procedure used, including registration, donor history recording, blood pressures, blood testing and preparation of the blood packs, or bags. These, they noted, were meticulously numbered, and constantly monitored so no possible mis-identification could occur.

They also watched the needle being inserted into the donor's arm and watched the flow of blood into the pack. Observers seemed to be fascinated at the precision demonstrated in the process of blood donation and left with a keener knowledge of a procedure that could be "life-saving".

Accidents

a parking lot near the Legion Hall. Mrs. Atkinson was transferred to Munson Medical Center in Traverse City, but a condition report was unavailable.

The "Jaws of Life" was used by Crawford County deputies to free two victims from a car involved in a head-on collision late Monday night between two cars on Sherman Road, north of Frederic. The two cars, one driven by Richard Rybolt of Waters, the other by Rosemary Trigger of Flint, containing four other family occupants, met head-on in the middle of a straight stretch on the paved road. The Frederic ambulance was called out to answer the call in addition to the Crawford County Ambulance Corps and Rescue Truck. Rosemary Trigger, driver of one of the cars, and Donna Trigger, were transferred to Munson Medical Center, where their conditions, according to local hospital officials, are listed as "critical".

Also on Monday night, Sheriff's Dept. deputies were called to the Mercy Hospital Emergency Room to investigate an accidental shooting incident involving a Frederic man. The victim suffered a head injury when a deer rifle he was handling mis-fired.

According to Sheriff Curt Haas, it was a busy week for the volunteer ambulance corps, answering any number of private and public calls.

Ski Schedule

(Continued from page 1)

\$95.00; Student Membership, \$75.00; Family Membership, \$165.00 up to four, (\$10 per additional person); Group daily rate (15 or more), \$4.50 per person.

Dave Wyss, Park Manager, reported that increases in fees were the result of inflation and the need for the park to continue operation on a self-sustaining basis. He also urged all skiers to review their winter activities to determine whether it's more economical to ski on a daily fee basis or on a season membership. Season memberships may be purchased by sending checks to Grayling Recreation Authority, P.O. Box 361, Grayling, MI 49738.

CARD OF THANKS

I would like to thank the doctors and staff of Mercy Hospital, especially Dr. Henig, Dr. Nelson and the nurses in intensive care.

I would also like to thank my many friends for their thoughtfulness to me at this time.

Conference

(Continued from page 1)

"It's a unique honor to be named 'Player of the Week' twice in one's career," said Public Relations Director Don Thomas of Grand Valley State, "but Will has earned every bit of it."

Grand Valley State went on to beat Wayne State University last Saturday to capture the conference crown and is now hoping for a bid to Division II of the N.A.I.A. playoffs, the decision expected by no later than this Friday. The finals are set this year to be held in Texas. If selected, Grand Valley would compete on December 2nd, and, at this point, against an unnamed opponent in an unnamed city.

According to college officials, Roach rushed for 512 yards in 127 carries for Grand Valley this year, a 4.0 average. He scored eight touchdowns on the ground and hauled in one from the air. His season total also includes ten aerial receptions for 67 yards.

Although injured in the Wayne State contest, Roach is expected to start if Grand Valley gets invited to participate in the Division II Playoffs.

In loving memory of our husband and father, Don J. Steffes, who passed away one year ago, Nov. 15, 1977.

High School Open House "Well Received"

PARENTS LINE UP last Thursday night to pick up those "infamous" report cards. (Joe Schrader Photos)

by Joe Schrader
"It was a good opportunity for parents to meet with administration officials and faculty members." That's how High School Principal Kent Reynolds summed up last Thursday night's Open House at the school that saw some 355 parents turn out to pick up student report cards and participate in the other activities planned for the evening. The event culminated the end of the first marking period for high school students.

A special session was conducted by school counselors Chris Smith and Bill Klinger to advise parents about scholarship and financial aid for students bound for college. About 100 parents attended the two meetings conducted for the purpose of providing information, including audio displays, about scholarships.

Wednesday Bridge Club

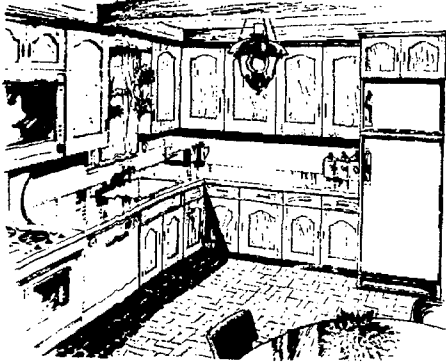

By Fay Bovee
The regular meeting of the Wednesday Night Bridge Club was held at the home of Mary Pettengill. High score was held by Jean Gothro and second high by Marjorie Hildebrand. Doris Souders had low. Marjorie Hildebrand was a sub for the evening.

LEARN ABOUT D.N.R.—On November 7, 1978, the fourth grade elementary children had Junior Deputy with two commissioned officers, Mr. Bartelli and Mr. Salminen from the DNR. Officer Bartelli told us what a commissioner officer does and he told us that they do things like check licenses and help people if they're hurt, and safety rules too. Officer Salminen told us all about fishing, snowmobiling, and motorcycle safety. And he answered a lot of questions. Shown in the picture with Officers Bartelli and Salminen are Gail Horning and Allen Brown.

Dear Friend:

They still use the acronym RSVP on formal invitations to politely request a response, but in today's world almost everyone knows that RSVP stands for the Retired Senior Volunteer Program.

The Senior Citizens of Crawford County really know and appreciate the opportunities RSVP provides them to give the benefit of their skills, talents and wisdom accumulated over their years of experience, to help the folks of our community.

And the recipients of these Volunteer Services equally know and appreciate the importance of that skilled help.

In the fiscal year ended this summer over 21,000 hours of meaningful "service" was rendered to 37 different activities by over 170 RSVPers - ranging from delivering Meals - On - Wheels to helping children with reading programs in the Crawford-AuSable Schools; to making clothes for low income family children to daily phoning and checking on shut-in Seniors; visiting Seniors in Mercy Hospital or at home; sewing and making gowns and jump suits for the Alpine Center; and dozens of others.

But, it takes money to keep the Crawford County Retired Senior Volunteer Program functioning. \$34,083 to be exact for the current fiscal year.

The Federal Government will provide \$21,020 of that budget, if RSVP can provide the remainder - \$13,063 - locally. About \$9000 can be raised locally by providing cash "equivalents", that is, buildings to house operations, desks, typewriters, etc., but to stay alive, Crawford County RSVP must raise \$4000 in hard cash.

\$4000 is only about .40c per person, a very modest sum, but, unfortunately every citizen cannot be depended upon to do his or her share.

If 800 Crawford County Citizens gave \$5 each, RSVP could continue performing its wonderful functions, keeping both the Senior Volunteers and recipients of their work very happy.

Won't you please be one of the "responsible" citizens of Crawford County who cares, and send at least \$5 to: RSVP, 308 Lawndale Drive, Grayling, MI 49738.

Gratefully,
Carol Kolka
Director, Craw. Co. RSVP

Bride To Be

Mr. and Mrs. Marvel W. Zimmerman of Muskegon announce the engagement of their daughter Pamela Sue to James B. Rogers of Sheridan son of Mr. and Mrs. Harold Rogers of Ionia.

Pamela is a 1972 graduate of Grayling High School and is presently attending Muskegon Community College. She is employed by General Telephone Company in Muskegon.

James is a 1966 graduate of Ionia High School and is also a graduate of Lansing Community College. He is employed by the Michigan State Police in Lakeview.

The couple plan a May 5th wedding.

The Zimmermans are former residents of Grayling.

Visit Museum

Friday, November 3, the entire Grayling Elementary second grade visited the Call of the Wild Museum in Gaylord. The children saw live bees making honey in a bee hive and lots of animals in their natural homes. They liked the phones that they could listen to the sounds of the animals. Their favorite was the big polar bear in the ice. It was a fun afternoon.

"BREAKER, BREAKER" -- When Governor William G. Milliken called the Michigan State Police Headquarters recently on a citizens band (CB) radio, a new experimental motorist aid project was officially put into operation. The service, known as B-E-A-R (for Board Emergency Assistance Radio), provides prompt response to motorists in trouble. The system includes 10 CB relay towers along the 140-mile stretch of Inter-

state 96 Freeway between Grand Rapids and Detroit. Motorists needing assistance can use Emergency Channel 9, which will put them into immediate contact with State Police in East Lansing. The control center, operated 24 hours a day, will in turn contact state police posts or other service agencies closest to the emergency for response. If successful on I-96, the service will be extended to other freeways in Michigan.

New Phone Directories In Mail

A scene of White Tail Deer is featured on the front cover of General Telephone's new directory and a cleaner, more readable type appears on the inside according to Lois Reagan, division manager for the company.

The new directory is now being distributed to customers in the communities of Gaylord, Grayling, Higgins Lake, Houghton Lake, Roscommon, and Vanderbilt.

"Again this year the directory will be somewhat larger because of additional white and yellow page listings," Mrs. Reagan said. "More noticeable, however, should be the cleaner, more readable type on our white pages."

She explained that General Telephone's directory company is now using computerized photocomposition which is responsible for the new type face in the white page section.

Customers calling concerning residence telephone service should note the new business office number for residence customers on page 3.

Beginning November 20 at 2:01 a.m., Gaylord and Grayling exchange customers will dial 1 instead of 120 on direct dialed long distance calls. Also, they will begin using the new local directory assistance number listed on page 3 at the same time.

Emergency numbers are readily accessible on page 1, dialing instructions on page 2 and telephone company service numbers, business office numbers and bill payment locations are located on page 3.

The name, address, and telephone numbers of gas, electric, and water utilities, as well as the telephone company, appear on page 4 as a convenience to customers who may want to inquire about service or report a problem. The telephone number of the consumer services division of the Michigan Public

New Members Sought During National REACT Month

As part of the observance of National REACT Month, in Crawford County, the Crawford AuSable REACT team is conducting a membership drive to encourage interested Citizens Band Radio operators to join their public service organization.

The team membership drive chairman, Charles Ryan, states, "We are interested in meeting serious minded CB radio licensees who would like to join us in serving the public." The team maintains a volunteer monitoring watch on CB emergency Channel 9 and cooperates with all local authorities.

The requirements for membership include: 1. Legal CB operations under a valid F.C.C. license or pending application. 2. A CB base station and home telephone for monitoring purposes. 3. A sincere interest in serving the public good.

The local team cooperates with all law enforcement agencies and disaster preparedness groups and is affiliated with REACT International, a non-profit public service organization. Those who are interested in membership or additional information, should contact Charles Ryan at 348-7662.

Christmas Seal Campaign Begins

The Michigan Lung Association announced its need for \$880,000 statewide as it kicked off its Christmas Seal campaign this week. Seals are in the mail to past contributors. The need in Crawford County has been set at \$2,220 which Brick Lancaster, president of MLA's Northwest Regional Council, hopes will be raised through Christmas Seal contributions and other fund raising efforts being organized by MLA volunteers in the county.

"One of the unique strengths of this organization is that 90 cents of every dollar contributed in Michigan stays in Michigan to help our own citizens," said Lancaster.

Christmas Seal contributions here support health-improving programs such as: a kindergarten through third grade curriculum to teach youngsters about smoking and its effects on the body, breathing clubs, self-care classes, smoking cessation groups, non-smokers' rights programs, scientific seminars and workshops for professionals, air conservation programs and educational fellowships, which are awarded to promising young physicians who seek further training in

lung disease in Michigan teaching hospitals.

"It is not commonly known that lung diseases result in staggering economic losses to the patient due to absence from work and school days," Lancaster said. Presently several hundred thousand residents of the state are afflicted by one or more of the three "chronic" lung diseases — emphysema, chronic bronchitis and asthma.

Citing the devastating way in which lung disease changes the way families live, the Michigan Lung Association, an educational organization, is pledged to the prevention and control of lung disease and the improvement of the health of the people of Michigan. The Christmas Seal campaign is its main source of support. For over 70 years these seals have worked for better health in Michigan.

Among last year's research grants that Michigan Lung Association helped to support were these: one to investigate the role of viruses in precipitating attacks of asthma; one to study the mechanisms of the influenza virus; and still another to use the electron microscope and determine more about how

Students Learn About Banking

The Consumer Education classes at Grayling High School were pleased to have Richard Vanderstelt of the Grayling State Bank visit them November 1 and explain the role banks play in savings and investments today. As the students have recently been studying savings and investments, his information added to their unit.

Mr. Vanderstelt also explained how the computer system has been incorporated into the daily activities of the Grayling State Bank. It was something to hear that a computer can print out 1,200 lines a minute when a good typist can only do about 90-100 words a minute!

To further emphasize his point on how investments can yield good returns, he paid each of the students, or investors, at the end of all three class periods their dividends — a crisp, brand-new dollar bill for their investments of time and being good listeners.

NOTICE TO HUNTERS

The Crawford County Sheriff's Department wishes to advise all visiting deer hunters that they may register their hunting camp locations at the Chamber of Commerce mobile office in downtown Grayling, Conservation Field Office or the Sheriff's Office.

Sweet Adelines Activities

Wednesday rehearsal found the Mid-Mitten Chapter digging in their proverbial stockings for Christmas music. Every year we plan to start early and learn new Christmas arrangements but each year the holidays creep up before we realize it. It still is fun to take out the familiar tunes and harmonize them again. Some sound pretty good and some we put back because they sound like "Scrooge" himself wrote the arrangements.

Are you getting the holiday fever?

We have a couple of Christmas sing-outs lined up so we will be busy in the coming months. The week of Thanksgiving we will take off from rehearsal - since Wednesday night is the time many start preparing for the Thanksgiving feast by stuffing turkeys. Have a "Happy Thanksgiving!"

District Court

The following appeared last week in 83rd District Court before Judge Francis L. Walsh:

Victor A. Gerhardt, 40, of Livonia, demanded preliminary examination on a charge of carrying a concealed weapon. The 12-day period was waived and a \$2000 cash/surety bond set.

Kevin Eugene Harmer, 20, of Frederic demanded preliminary examination on a charge of breaking and entering an unoccupied building. The 12-day period was waived and a \$2000 cash/surety bond set.

Marc Lynn Blindschatel, 18, Frederic, was bound over to Circuit Court on a charge of breaking and entering an unoccupied dwelling. A \$4,000 cash-surety bond was set. He also pleaded guilty to a charge of impaired driving, second offense, and was sentenced to 30 days in jail.

Greg Alan Blindschatel, 24, Frederic, demanded examination on two charges of receiving and concealing stolen property over \$100. The 12-day period was waived and a \$2,000 cash-surety bond set.

Larry K. Johns, 21, Flint, pleaded guilty to a charge of receiving and concealing stolen property under \$100 and was sentenced to 12 days in jail with credit given to time served and \$105 fine or an additional 10 days in jail and \$100 attorney fees.

Linda C. Longworth, 34, Grayling, pleaded guilty to a charge of impaired driving and was fined \$185 or 14 days in jail.

Box Elder Bug New to Area

by Willard Bosserman
County Extension Director

If you own a female boxelder tree you may have boxelder bugs. Boxelder bugs do not bite, sting, or carry disease. They are a nuisance when large numbers occur near or in houses.

They are black and red, about one-third to one-half inches long. The boxelder bugs feed on seed pods and leaves of boxelder, maple and ash. This time of year they seek over - wintering quarters in the house. That is when they become troublesome. People don't like to share their homes with the crawling little nuisances.

The insecticide Sevin is recommended to control the insect. Gale Saxton, of Houghton Lake, reports excellent success with Sevin. You can buy it in garden stores and hardware stores. Although some hardware stores have put their insecticides in storage for the winter already.

Insecticides aren't as effective when the temperature goes below 50 degrees, so this might be a little drawback at this time of year.

One drastic solution would be to cut down all the female boxelder trees. These are easily identified by the seed pods which are on the trees now. A chemical control program in June or July might keep the population down so there would not be so many clustering around in the fall.

Boxelder bugs used to be a real problem when I was in Oakland county. No insecticide was very effective. Even (please excuse the expression) DDT did not work very well in killing boxelder bugs. This year is the first I have seen many up here. For more information write for the bulletin, "Controlling Pests of Trees and Shrubs", from our office, Box 507, Roscommon, MI 48653.

Mustard Facts
Dry mustard is made of mustard seeds ground fine. Prepared mustard is dry mustard mixed with vinegar or water. French and Louisiana mustards are mild-flavored prepared mustards sometimes seasoned with added herbs. English mustard is very sharp.

Attend the Church of Your Choice

History has painted our pilgrim ancestors in the somber tones of formality and austerity. Yet they were really a bold and vigorous band—a society of brave believers who lived their beliefs.

Thanksgiving Day in 1621 marked the reaping of their first harvest in what they quaintly called *New England*.

But never forget: it also marked their filling of the barns and stocking of the larders for what men still describe with awe as a "New England Winter."

Thanksgiving is not just a look back in gratitude. It is a look forward in faith. It is a People remembering their dependence on God!

Death of a newspaper

Richard Millman

Death of a newspaper is always a sad and tragic time, especially for those of us in the business. It also is sad and tragic for the public in general, whether the public realizes it or not.

The recent demise of The National Observer falls into that category, and probably in spades for those of us who cut our journalistic teeth on the news side of the business.

The National Observer was a weekly newspaper, nationwide in scope, and of a sober and dedicated aim; these combinations made it unique in the United States. Other national weeklies are more sensational in nature, whereas the Observer was quality with a capital Q.

Why, then, is it out of business? The answer is a simple one. It didn't make money.

National Observer plain and simply didn't sell enough advertising to make it a paying proposition; so after 15 years of trying, it folded.

Broke, with a circulation of 400,000 or more?

Certainly. Circulation revenue, important though it is, cannot sustain even a quality publication by itself. Advertising revenue must be obtained in sufficient quantity to pay the bills and provide enough profit to warrant investment. In the case of the National Observer, the ad bucks weren't there.

The parent Dow Jones Company has many successful publishing ventures, including The Wall Street Journal and The Traverse City Record Eagle and several more.

The National Observer was started as an experiment, 15 years ago, designed at that time as an inexpensive news digest aimed at a family readership. As with most new publishing ventures, The Observer was a bit as a for a while, seeking to find its niche in national readership. All the time, its quality was high; but financial success never developed.

"The long effort to make The Observer self-supporting has not succeeded and its future prospects do not give suffi-

cient encouragement to continue the battle," said Warren Phillips, Dow Jones president, announcing the decision.

"The paper's deficit was reduced year after year, from nearly \$2 million in 1965 to \$300,000 in 1974. Then the losses began to inch up again."

Phillips cited rising postage costs and the high cost of enticing new subscribers as the primary economic pinches.

"We do not foresee the prospect of recruiting enough readers or advertisers ... to offset the rising cost trend and give The Observer hope for economic health in the future," Phillips said.

So, caught between rising costs and restricted revenues, The National Observer folded. It's too bad.

The idea of a national weekly newspaper, less ostentatious than the news-magazines and based on in-depth reporting and investigative writing, sounds like a good idea. The National Observer did its editorial job well; the reporting was good, the editing was tight, the writing was well done, and as a journal, it deserved high marks.

But even a high quality journal cannot live with everlasting deficits. A company like Dow Jones, with its vast resources, can keep an experiment going for a while; but sooner or later, the dead weight of an unprofitable though noble idea will feel the axe.

Newspapers do not live by news alone — even the high quality ones like the National Observer. They need the dollars that advertising produces to stay in existence. That's just as true of the hometown community newspaper you are reading right now, as it was for The National Observer.

You might remember that sobering fact of journalistic life as you thumb through your favorite newspaper.

News excellence certainly is a well-deserved goal for any newspaper, and if achieved, it's worthy of praise and pride.

But it doesn't pay the bills.

On September 30, 1978 at 3:00 P.M. at Werthman Ranch in Lovells, Alice L. Hergenoeder and Lawrence E. Duby exchanged vows in a double ring ceremony, in an outdoor wedding on a foot bridge across Big Creek, Pastor Rex D. Phillips of Frederic officiated.

The bride is the daughter of Mr. and Mrs. George Jones of Bay City. Parents of the groom are Mr. and Mrs. Ray Doby of Lovells.

The bride was escorted down the steps to the footbridge by Mr. R.K. Lambert of Lovells.

Her wedding dress was daron polyester organza, fashioned with empire bodice of cluny lace, bishop sleeves with lace cuffs, A-line skirt extending into a chapel train with cluny lace ruffles around the bottom. Juliet cap of lace held a fingertip imported illusion veil. She carried peach rose buds, with baby carnations and ivy.

Mrs. Shirlee Lambert, sister of the groom was Matron of Honor. She wore a floor length gown of mint green, polyester with a matching cape. Miss Darlene Hergenoeder, sister of the bride and Mrs. Carol Weber, sister of the groom, were bridesmaids. They wore floor length gowns of peach and yellow with matching capes. All carried three peach rose buds with trailing streamers.

The Best Man was Donald Burden of Grayling, John Doby, brother of the groom and Ken Rose, nephew of the groom, were groomsmen.

Mother of the bride wore a mint green floor length gown with chiffon angel sleeves. Mother of the groom wore a peach floor length gown. They both wore identical corsages of peach rosebuds and baby carnations.

Howard Schmidt of Lovells, sang the "Lord's Prayer" immediately following the ceremony.

Tammy Doby of Lovells, passed out bags of rice to the guests.

Mr. and Mrs. Allen Werthman of Detroit held a champagne luncheon afterwards for the guests.

An evening reception was held at Lovells Township Hall with the AuSable River Band as

Take Care

Take care when serving all foods. Even tomatoes and potatoes, for example can have harmful results when served to excess. Poisonous alkaloids in the vines, leaves and sprouts of these two food plants can cause serious stomach illness and even heart failure. Remember, moderation in all things!

- GEMINI** May 21-June 20 Forget about new friends at this time. Devote more time to old friends and business associates. Consolidation is important.
- MOONCHILD** June 21-July 22 You rarely feel courage, but cosmic influences now build your confidence. You are heading toward solid goals.
- LEO** July 23-Aug. 22 Mercenary appeasement, for sure! A gift or so, here. And a dollar or so, there, will go a long, long way.
- VIRGO** Aug. 23-Sept. 22 You have become a little too eager. You are stepping on someone's toes — who happens to be in authority.
- LIBRA** Sept. 23-Oct. 22 According to stellar patterns, there is an unusual message due. Most members of your sign should receive an interesting phone call.
- SCORPIO** Oct. 23-Nov. 21 Some Scorpio's with extreme reluctance, will be forced to cut bait! A decision facing you on the opposite sex is apparent.
- SAGITTARIUS** Nov. 22-Dec. 21 Punctuality will not be one of your strong points. Lethargy and indifference are dominating. You can't help it.
- CAPRICORN** Dec. 22-Jan. 19 Demands on you this week will be more than you can handle. As a matter of fact, cool it!
- AQUARIUS** Jan. 20-Feb. 18 Aggressive action puts you ahead of competition. When opportunity knocks — you must open the door.
- PISCES** Feb. 19-Mar. 20 Success this time could go to your head. However, don't join the ranks of your enemies and become hard to get along with.

Eberts - Canfield Vows Spoken

Vicky Diane Eberts and Sidney John Canfield were united in marriage Saturday, October 28, 1978 at Michelson United Methodist Church. Reverend Spencer officiated at the seven o'clock double ring ceremony. Music was provided by Janet Dice at the organ. "The Lord's Prayer" was played during the ceremony on the chimes. The altar was decorated with yellow spider mums.

The bride was given in marriage by her father. She was attired in a floor length white dress with lace top and long sleeves, a shoulder length veil held by a daisy head band. She carried a bouquet of yellow roses and daisies.

The Maid of Honor was Becky Eberts, sister of the bride. Miranda Canfield and Cecilia Canfield were the bridesmaids. They were dressed in baby blue floor length dresses with long sleeves and wore blue ribbons in their hair. All carried blue and white daisies tied with blue ribbon.

Kurt Kolka was the best man. John Juntilla, Chris Austin, Dan Canfield, Douglas DeHart and Dave Hurst from St. Johns served as ushers.

Ron H. Eberts and Amy LaGrow were ring bearers.

A reception was held at the Moose Lodge for 200 guests. The hall was decorated with white bells and blue and white streamers. A three-tiered yellow and white cake decorated with swans and daisies was served. The couple will be making their home in North Dakota, where Sidney is stationed.

The bride's mother wore a three-quarter length, light blue dress with a corsage of yellow

Represents Grayling At Development Conference

Walt Nowak, Chamber of Commerce Director, represented Grayling recently at a meeting designed to promote professional development at a conference held recently in Lansing.

The staffs of 44 associations assembled recently at Long's Convention Center, Lansing, for a comprehensive one-day professional development conference sponsored by the Organization Executives of Michigan (OEM) in cooperation with the Association Executives of Metropolitan Detroit and the Capitol Club of Lansing.

In opening remarks, OEM President Albert O. Horner welcomed participating asso-

ciation staff members and stressed that the purpose of the annual OEM conference is "to give those who have similar work responsibilities the opportunity to communicate and to grow together professionally." He said this year's conference was OEM's 16th.

All are member associations of OEM, an organization which provides the executives and staffs of Michigan professional, business, technical, trade associations and Chambers of Commerce an opportunity for the exchange of ideas, as well as promoting efficiency in the overall operations of Michigan associations.

Christmas

surfactant is produced in the lungs. Thousands of babies die every year from respiratory distress syndrome, also called hyaline membrane disease, because not enough surfactant is produced in their lungs.

According to State Health Department statistics, a total of 3,632 deaths, not including lung cancer, were ascribed to lung diseases including chronic lung disease, tuberculosis, influenza and pneumonia, and asphyxiation of the newborn.

The chronic lung diseases are common and serious health problems in Michigan. 1,737 people died of these diseases in 1977.

Acute lung diseases, such as pneumonia and influenza, often looked upon as "less serious" than other lung diseases, are logged as claiming almost 2,000 lives in Michigan last year.

This year's Christmas Seal campaign seeks funds to continue successful programs and to start new ones while alerting

parents, teachers, grandparents and babysitters to the danger of "foreign bodies" to young lungs. Hard candies, popcorn, peanuts, holiday treats, small toys, pins, etc. inhaled into the lungs cause breathing interference, claiming the lives of 2,000 children annually.

Service Commission also appears on that page.

Long distance dialing information, time zones, rate information, and area code examples continue to appear on pages 5, 6, and 7. Page 8 will include the detailed explanation of the telephone bill.

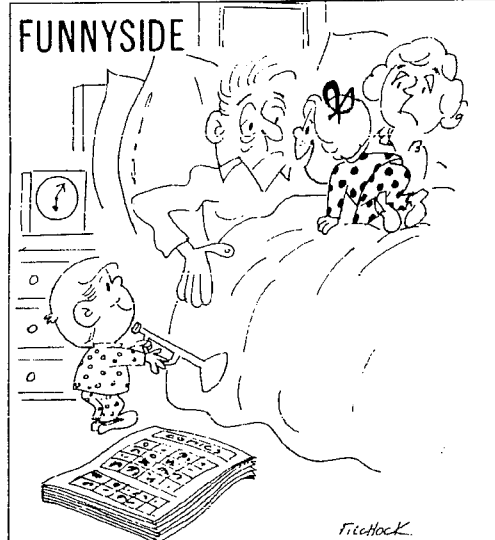

A section on customer rights and responsibilities has been included on pages 9 through 11 and the general information can be found on page 12.

The cover painting, entitled, "White Tail Deer", is by noted wildlife artist Martin Glen Loates. Although prints are not available from General Telephone, information on how they can be obtained is located on the inside front cover.

Questions concerning the directory, or any other phase of telephone service, should be directed to the General Telephone service office, Mrs. Reagan said.

IQ Facts

A normal intelligence quotient (IQ) ranges from 85 to 115. According to one survey, only one per cent of the people in the U.S. have an IQ of 140 or above. Experts believe that John Stuart Mill, an English writer and economist, had an IQ of 190.
